Phone: +86 574 8667 1366
E-mail: sales@trafopsu.com
Internet: www.trafopsu.com

The requirements for environmental matters (such as EU-Directives for RoHS, REACH, WEEE, Conflict Minerals/CMRT, etc.) are frequently updated, changed, or amended, requiring the re-issue and update of related documents. As Hipower has a lot of customers, we are not able to handle special documents, agreements, or schemes from single customers requiring filling-in, signature, re-issue, or update. Please accept this general declaration on environmental matters.

Hipower bases its general material content knowledge partly on information provided by third parties and has taken and continues to take commercially reasonable steps to provide representative and accurate information but may not have conducted destructive tests or chemical analysis on incoming material and chemicals. Both Hipower and its suppliers may consider certain information to be proprietary, and therefore EC/CAS numbers and other limited information may not be available for release.

We, Hipower Electronics (Ningbo) Co. Ltd, declare under our sole responsibility that all products produced and/or sold by Hipower Electronics (Ningbo) Co. Ltd carrying the "Hipower"-logo or trademark, or associated with them, are in conformity with relevant directives, standards, or other normative documents, following the provisions of:

1. REACH Directive

EC Regulation No 1907/2006 (Registration, Evaluation, Authorization and Restriction of Chemicals), including REACH Authorisation 2022-04 Hipower bases this Conformity Declaration on the wording of the Directive and the guidelines given in "REACH - Guidance on requirements for substances in articles", issued by the European Chemicals Agency (ECHA). We wish to state:

- *Products produced and sold by Hipower are regarded as Articles, not Substances, under REACH.*
- *Products produced and sold by Hipower contain < 0.1 % w/w Substances of Very High Concern (SVHC).*
- *Hipower produces and sells products containing a total < 1 t/a Substances of Very High Concern.*
- *Based on the above, Hipower has not identified a registration requirement for any substance in articles we have been producing or importing and is not required to take any further actions under the REACH-Directive.*

2. RoHS Directive

EU-Directive 2011/65/EU 2019-07 & 2015/863/EU (Restriction on use of Hazardous Substances in EEE, "RoHS") Products produced by Hipower Electronics Ltd comply with the directive's requirement that the concentration of the regulated materials must not exceed:

- *Lead (Pb): 0.1% by weight*
- *Mercury (Hg): 0.1% by weight*
- *Cadmium (Cd): 0.01% by weight*
- *Hexavalent Chromium (Cr6+): 0.1% by weight*
- *Polybrominated Biphenyls (PBBs): 0.1% by weight*
- *PolyBrominated Diphenyl Ethers (PBDEs): 0.1% by weight*
- *Bis(2-ethylhexyl) phthalate (DEHP): 0.1% by weight*
- *Butyl benzyl phthalate (BBP): 0.1% by weight*
- *Dibutyl phthalate (DBP): 0.1% by weight*
- *Diisobutyl phthalate (DIBP): 0.1% by weight*

3. TSCA Section 6(h) & Section 8(a)(7)

U.S. Environmental Protection Agency (EPA) Regulation under Toxic Substances Control Act (TSCA) Section 6(h) 2021-03 & PFAS Section 8(a)(7) 2024-01 We declare under our sole responsibility that none of the products produced by Hipower contain any of the persistent, bioaccumulative, and toxic (PBT) chemicals controlled under TSCA Section 6(h) 2021-03:

- PIP (3:1) (phenol, isopropylated phosphate (3:1), CAS 68937-41-7)
- DecaBDE (decabromodiphenyl ether, CAS 1163-19-5)
- 2,4,6 TTBP (2,4,6-tris(tert-butyl)phenol, CAS 732-26-3)
- HCBd (hexachlorobutadiene, CAS 87-68-3)
- PCTP (pentachlorothiophenol, CAS 133-49-3)

Furthermore, Hipower monitors and complies with the reporting and recordkeeping requirements regarding Per- and Polyfluoroalkyl Substances (PFAS) as outlined in EPA TSCA Section 8(a)(7) 2024-01.

4. California Proposition 65

State of California "Regulation 65" (Safe Drinking Water and Toxic Enforcement Act) - Updated 2025-12
Any company that operates in California, sells products in California, or manufactures products that may be sold in or brought into California is subject to "Proposition 65". "Proposition 65" requires warning labels on any product that may contain any of the elements the California Air Resources Board considers a carcinogen or a reproductive toxicant. The list of elements keeps changing and is periodically updated. Included elements used in electronic equipment mostly correspond to the RoHS and REACH Directives. Based on the regulation requirements (updated 2025-12), products or accompanying documents may bear the appropriate warning indicating "Cancer and Reproductive Harm" - www.P65Warnings.ca.gov.

5. Conflict Minerals (CMRT)

UN res. 1952 (2010) & U.S. Congress Act H.R.4173 Title XV Sec.1502 of 2010 ("Dodd-Frank Act")

Hipower frequently asks for CMRT declarations from our suppliers and we are in the process of confirming that our supply chain is conflict-free; however, our information is still incomplete. Our statement regarding the Tin used in our process is complete, but we are unsure about some components that may include Gold, Tantalum, and Tungsten. If these components are used, there are only micrograms inside our products. We therefore declare our CMRT for Gold, Tantalum, and Tungsten so far as no/unknown.

Our supply chain is complex, and in many cases, we are four or more steps removed from the smelter or mine, depending on suppliers that have incomplete information about the origin of the CMs they supply to us. Ensuring that all of our products are conflict-free is a significant undertaking, and it will take time to verify sources throughout our broad network of suppliers. Because our knowledge about the origin of all the conflict minerals in our products is incomplete, we are not able to designate the products as conflict-free, but we are working to improve our level of knowledge by collaborating with our suppliers.
